## Synonymische Verweise aus den nach Drucklegung unserer Bibliographie erschienenen Vol. XXV und XXVII des „Catalogue of Birds", und Vol. III von Sharpe's British Birds.

**Anas castanea**: s. Nettion castaneum.

**Anser segetum**: s. Anser fabalis.

**Anser cinereus**: s. Anser ferus.

**Apteryx maxima**, Verr.: s. Apteryx haasti.

**Bernicla**: s. Branta.

**Bernicla brenta**: s. Branta bernicla.

**Bulweria columba**: s. B. bulweri

**Casuarius edwardsi**: s. C. papuanus.

**Casuarius johnsoni**: s. C. australis.

**Casuarius kaupi, Rosenb.**: s. C. uniappendiculatus.

**Casuarius kaupi, Scl.**: s. C. papuanus.

**Casuarius westermanni**: s. C. papuanus.
**Charadrius cantianus**: s. Aegialites alexandrina.
**Charadrius minor**: s. Aegialites dubia.
**Chaulelasmus laboradorius**: s. Camptolaemus labradorius.
**Chauna derbiana**: s. Ch. chavaria.
**Ciconia alba**: s. C. ciconia.
statt **Cosmetta** lies: Cosmonetta.
**Cygnus immutabilis**: s. C. olor, var. domestica.
**Cygnus nigricollis**: s. C. melanocoryphus.
**Diomedea derogata**: s. D. albatrus.
**Gallinago gallinula**: s. Limnocryptes gallinula.
**Himantopus rufipes**: s. H. himantopus.
**Larus longirostris**: s. L. novae-hollandiae.
**Larus philadelphicus**: s. L. philadelphia.
**Limosa aegocephala**: s. Limosa limosa.
**Machetes pugnax**: s. Pavoncella pugnax.
**Mergus cucullatus**: s. Lophodytes cucullatus.
**Mergus merganser**: s. Merganser castor.
**Mergus serrator**: s. Merganser serrator.
**Mergus squamatus**: s. Merganser squamatus.
**Nettapus coromandelianus**: s. Nettopus coromandelianus.
**Nothura maior**: s. N. maculosa.
**Nyroca collaris**: s. Fuligula collaris.
**Nyroca fuligula**: s. Fuligula fuligula.
**Nyroca marila**: s. Fuligula marila.
**Nyroca mariloides**: s. Fuligula mariloides.
**Phalaropus fulicarius**: s. Crymophilus fulicarius.
**Puffinus maior**: s. P. gravis.
**Querquedula carolinensis**: s. Nettion carolinense.
**Querquedula crecca**: s. Nettion crecca.
**Querquedula eatoni**: s. Dafila eatoni.
**Querquedula flavirostris**: s. Nettion flavirostre.
**Querquedula marmorata**: s. Marmaronetta angustirostris.
**Somateria stelleri**: s. Heniconetta stelleri.
**Stercorarius catarrhactes**: s. Megalestris catarrhactes.
**Sterna anglica**: s. Gelochelidon anglica.
**Sterna atrofasciata**: s. Sterna macrura.
**Sterna caspia**: s. Hydroprogne caspia.
**Strepsilas interpres**: s. Arenaria interpres.
**Tadorna casarca**: s. Casarca rutila.
**Totanus glareola**: s. Rhyacophilus glareola.
**Totanus hypoleucus**: s. Tringoides hypoleucus.
**Totanus littoreus**: s. Glottis nebularius.
**Totanus macularius**: s. Tringoides macularius.
**Totanus ochropus**: s. Helodromas ochropus.
**Tringa alpina**: s. Pelidna alpina.
**Tringa couesi**: s. Arquatella couesi.
**Tringa maculata**: s. Heteropygia maculata.
**Tringa maritima**: s. Arquatella maritima.
**Tringa minuta**: s. Limonites minuta.
**Tringa minutella**: s. Limonites minutella.
**Tringa rufescens**: s. Tringites subruficollis.
**Tringa subarquata**: s. Ancylochilus subarcuatus.
**Tringa temmincki**: s. Limonites temmincki.
**Vanellus cristatus**: s. Vanellus vanellus.

Blainville, par M. P. Picard. Text 4 vols. 4. Atlas 4 vols. fol. Paris, J. B. Baillière et fils, 1839—64. *fr.* 961.—

Dies Werk erschien in 26 Heften, von denen die ersten 25 folgenden Titel trugen: Ostéographie; ou description iconographique comparée du squelette et du système dentaire des cinq classes d'animaux vertébrés récents et fossiles, etc. Paris, Arthur Bertrand, [1839—55.] Das 26. Heft wurde unter obigem Titel, zugleich mit den Titeln für die 4 Bände Text u. 4 Bände Atlas von den Baillières im Jahre 1864 ausgegeben. Den Inhalt der einzelnen Hefte s. bei Engelmann (p. 249) u. Carus-Engelmann (p. 953.)

**Bloch**, Eugène Armand, Contribution à l'étude de la physiologie normale et pathologique des sueurs. Paris, Baillière et fils, 1880. gr. 8. (107 p.) *fr.* 2.—

**Blumberg**, Paul, Über die Augenlider einiger Hausthiere mit besonderer Berücksichtigung des Trachoms. Inaug.-Diss. Med. Facult. Dorpat. Dorpat 1867. Druck von Heinrich Laakmann. (64 S., 1 Bl., m. 1 lith. Taf.)

**Bochefontaine,** Sécrétion des glandes sous-maxillaires au moment de la mort, après la section de la corde du tympan. in: Compt. Rend. et Mém. Soc. d. Biol. Paris. 6. Sér. T. 2. (1875.) 1876. C. R. p. 328.

**Boeckmann,** Simon, Über die Functionsfähigkeit heterogenen Blutes im Körper der Säuger. Inaug. Diss. Med. Facult. Greifswald. Greifswald, Druck von F. W. Kunike, 1875. 8. (24 S.)

**Boehm,** Rudolf, Experimentelle Studien über die Dura mater des Menschen und der Säugethiere. (M. 1 Taf.) in: Arch. f. pathol. Anat. 47. Bd. (4. F. 7. Bd.) 1869. p. 218—234.

**Böttcher,** Arthur, Über Entwickelung und Bau des Gehörlabyrinths nach Untersuchungen an Säugethieren. 1. Theil. (M. 12 Taf.) in: Nov. Act. Acad. Leop.-Carol. T. 35. 1870. No. 5. (1869.) (Tit., 1 Bl., 203 S.) — Auch separ.: Leipzig, Engelmann, 1870. 4. (IV, 203 S.) ℳ 15.—

—— Recherches sur le developpement et la structure de l'oreille interne chez les Mammifères. (Extrait.) in: Journ. de l'Anat. et de la Physiol. (Robin.) 8. Année. 1872. p. 439—447.

**Bogomoloff,** Timotheus, Über die Zusammensetzung der Milch. in: Medic. Centralbl. 9. Jhg. 1871. p. 625—627.

**Bonnet,** Robert, Zur Kenntniss der Uterinmilch. in: Deutsche Ztschr. f. Thiermed. 6. Bd. 1880. p. 430—443.

—— Über die Nerven der Haarbälge. in: Bayer. ärztl. Intelligenzbl. 25. Jhg. 1878. p. 316.

—— Studien über die Innervation der Haarbälge der Hausthiere. (M. 3 Taf.) in: Morphol. Jahrb. 4. Bd. 1878. p. 329—398.

**Booker,** W. D.: s. Martin, H. Newell.

**Borsenkow,** Über den feineren Bau des Eierstocks. Vorl. Notiz. in: Würzburg. naturwiss. Ztschr. 4. Bd. 1863. p. 56—61.

**Bouvier,** Craniologie comparée de l'homme et des animaux à l'aide de coupes verticales médianes de crânes superposées. in: Bull. Soc. d'anthropologie. Paris. T. II. 1867. p. 551.

**Brame,** Ch., Sur les globules du lait. in: Ann. Soc. d'agricult., sc. etc. du départ. d'Indre-et-Loire. 2. Sér. T. 53. 1874. p. 297—298.

**Brass,** (Arnold), Über den Bau u. die verschiedene Entwickelung der weiblichen Geschlechtsapparate der Säuger. in: Ztschr. f. d. ges. Naturwiss. 53. Bd. (3. F. 5. Bd.) 1880. p. 672—673.

**Braune,** Wilhelm u. Karl **Kyrklund,** Ein Beitrag zur Mechanik des Ellenbogengelenkes. (M. 1 Taf.) in: Arch. f. Anat. u. Physiol. Anat. Abth. Jhg. 1879. p. 321—340.

**Breiter,** Wilh., Uber die Ganglien in der Darmwand der Säugethiere. Inaug. Diss. Med. Facult. Zürich. Zürich, Druck von Zürcher & Furrer, 1861. 4. (21 S., 1 Bl., m. 1 Taf.)

**Broca,** P., Anatomie comparée des circonvolutions cérébrales. Le grand lobe limbique et la scissure limbique dans la série des mammifères. (Avec grav.) in: Bull. Soc. d'anthropol. 3. Sér. T. 1. 1878. p. 385—498.

(——) Sur les indices de largeur de l'omoplate chez l'homme, les singes et dans la série des mammifères. in: Bull. Soc. d'anthrop. de Paris. 3. Sér. T. 1. 1878. p. 66—92. — Auch separ. Paris, impr. Hennyer, 1878. 8. (31 p. avec vign.)

**Brock,** J., Über die Entwicklung des Unterkiefers der Säugethiere. (M. 2 Taf.) in: Ztschr. f. wiss. Zool. Bd. XXVII. Hft. 3. 1876. p. 287—318.

**Bruch,** C., Über die Entwickelung des Schlüsselbeins. (Briefl. Mittheilung.) in: Jenaische Ztschr. f. Med. u. Naturwiss. 3. Bd. 1867. p. 299—304.

**Gegenbaur,** C., Nachschrift zu vorstehender Mittheilung. ebd. p. 304—307.

—— Über den Schliessungsprocess des Foramen ovale bei Menschen und Säugethieren. (M. 1 Taf.) in: Abh. d. Senckenberg. naturf. Ges. 4. Bd. 1862—63. p. 46—62.

**Brücher,** P. R., Grundzüge der Mechanik des Hufes u. einer darauf gestützten naturgemässen Diätetik desselben. [Inaug. Diss. Philos. Facult. Göttingen]; Hannover, Schmorl u. von Seefeld, 1876. 8. (34 S.)

**Brümmer,** Joh., Anatomische und histologische Untersuchungen über den zusammengesetzten Magen verschiedener Säugethiere. Inaug.-Diss. Phil. Facult. Leipzig. Leipzig, Druck von J. B. Hirschfeld, 1876. 8. (56 S. m. 5 Taf.) — Auch in: Deutsch. Ztschr. f. Thiermedicin u. Pathol. 2. Bd. 1876. p. 158—186; 299—319.

—— Stachel- und Riffzellen in der Magenwand verschiedener Säugethiere. in: Medic Centralbl. 13. Jhg. 1875. Nr. 28. p. 451—452.

**Brunn**, A. von, Über eine den interstitiellen Zellenmassen des Hodens ähnliche Substanz in der Milchdrüse und Unterkieferdrüse. Vorl. Mittheilung. in: Götting. Nachricht. 1874. p. 449—451.

—— Zur Kenntnis der physiologischen Rückbildung der Eierstockseier bei Säugethieren. ebd. 1880. p. 155—156.

—— Über die den rothen Blutkörperchen der Säugethiere zugeschriebenen Kerne. (M. 1 Taf.) in: Arch. f. mikr. Anat. 14. Bd. 1877. p. 333—342.

**Brunner**, Gustav, The connections between the ossicles of hearing. (Transl.) (With 1 Pl.) in: Arch. Ophth. a. Otol. N. York. III. 1873—74. p. 145—174.

—— Über die Verbindungen der Gehörknöchelchen, namentlich des Hammer- u. Ambosgelenks. Eine vorl. Mitth. in: Monatsschr. f. Ohrenhlk. 6. Jhg. 1872. p. 9—10.

—— Die Verbindungen der Gehörknöchelchen. (M. 2 Taf.) in: Arch. f. Augen- u. Ohrenhlk. 3. Bd. 1. Abth. 1873. p. 22—43.

**Rüdinger**, Bemerkungen zu der Abhandlung des Dr. G. Brunner, über die Verbindungen der Gehörknöchelchen. in: Monatsschr. f. Ohrenheilk. 7. Jhg. 1873. Nr. 11. Beilage. p. 137—140.

SIGNATUR 561—600.

LEIPZIG

VERLAG VON WILHELM ENGELMANN

1901.

# Inhalt der Lieferungen.

1. Lieferung: Naturwissenschaften im Allgemeinen. I. Literatur. A. Bücherkunde. B. Periodische Schriften. — II. Hilfsmittel. A. Acclimatisation (im Allgemeinen); Aquarien; Museen; Oeffentliche und Privat-Sammlungen; Zoologische Gärten; Zoologische Laboratorien und Stationen. B. Das Sammeln und Aufbewahren naturhistorischer und vergleichend-anatomischer Gegenstände. C. Mikroskop und mikroskopische Technik.

2. Lieferung: C. Mikroskop und mikroskopische Technik (Schluss). — III. Geschichte der Naturwissenschaften. Nachrichten über Leben und Wirken von Vertretern der Naturwissenschaften, insbesondere der Zoologie. — IV. Naturwissenschaften im Allgemeinen. 1. Die Naturwissenschaften als Gegenstand des Studiums und des Unterrichts (Methode), sowie in ihrem Verhältniss zu anderen Wissenschaften. 2. Vermischte naturwissenschaftliche Schriften (Lehrbücher, Allgemeine Naturschilderungen. Naturphilosophie u. s. w.). 3. Naturhistorische Art. Descendenzlehre. Darwinismus. 4. Nomenclatur. — V. Naturhistorische Länder- und Reisebeschreibungen. — Zoologie. A. Biologie (Vergleichende Anatomie und Physiologie).

3. Lieferung: A. Biologie (Vergleichende Anatomie und Physiologie, Schluss. — B. Vermischte zoologische Schriften. — C. Thiergeographie. Faunen. — D. Schriften über einzelne Gruppen. I. Wirbellose Thiere im Allgemeinen. II. Protozoa. 1. Allgemeines. 2. Faunen. 3. Sarcodina. 4. Sporozoa. 5. Mastigophora. 6. Infusoria. III. Coelenterata. 1. Allgemeines. 2. Faunen. 3. Porifera. 4. Anthozoa.

4. Lieferung: III. Coelenterata. 4. Anthozoa (Schluss). 5. Polypomedusae. 6. Ctenophora. IV. Echinodermata. 1. Allgemeines; Anatomie und Physiologie. 2. Fauna. 3. Crinoidea. 4. Asteroidea. 5. Echinoidea. 6. Holothurioidea. V. Vermes. 1. Allgemeines; Anatomie und Physiologie. 2. Fauna. 3. Schriften über Eingeweidewürmer. (»Helminthen«.) 4. Schriften über einzelne Gruppen. VI. Arthropoda. 1. Bibliographisches. 2. Periodische Schriften. 3. Allgemeines und Vermischtes. VII. Crustacea. 1. Allgemeines; Anatomie und Physiologie. 2. Fauna. 3. Entomostraca. 4. Phyllopoda. 5. Ostracoda. 6. Copepoda. 7. Cirripedia. 8. Malacostraca im Allgemeinen. 9. Leptostraca. 10. Arthrostraca. 11. Thoracostraca. 12. Xiphosura. VIII. Arachnoidea. 1. Allgemeines; Anatomie und Physiologie. 2. Fauna. 3. Einzelne Ordnungen.

5. Lieferung: VIII. Arachnoidea. 3. Einzelne Ordnungen (Schluss). IX. Onychophora. X. Myriopoda. XI. Insecta. 1. Allgemeines. 2. Anatomie und Physiologie. 3. Fauna. 4. Einzelne Ordnungen.

6. Lieferung: XI. Insecta. 4. Einzelne Ordnungen. (Fortsetzung.)

7. Lieferung: XI. Insecta. 4. Einzelne Ordnungen. (Fortsetzung.)

8. Lieferung: XI. Insecta. 4. Einzelne Ordnungen. (Fortsetzung.)

9. Lieferung: XI. Insecta. 4. Einzelne Ordnungen. (Schluss.) XII. Molluscoidea. 1. Bryozoa. 2. Brachiopoda. XIII. Mollusca. 1. Bibliographisches. 2. Periodische Schriften. 3. Allgemeines. 4. Anatomie und Physiologie. 5. Fauna. Sammelberichte. 6. Solenogastres. 7. Lamellibranchiata. 8. Scaphopoda. 9. Gastropoda.

10. Lieferung: XIII. Mollusca. 9. Gastropoda (Schluss). 10. Pteropoda. 11. Cephalopoda. XIV. Tunicata. a) Allgemeines. b) Anatomie und Physiologie. c) Fauna. d) Einzelne Klassen, Ordnungen, Familien, Gattungen und Arten. XV. Vertebrata. 1. Allgemeines und Vermischtes. 2. Anatomie und Physiologie. 3. Fauna. XVI. Pisces. 1. Bibliographisches. 2. Allgemeines und Vermischtes.

11. Lieferung: XVI. Pisces. 2. Allgemeines und Vermischtes (Schluss). 3. Anatomie und Physiologie. 4. Fauna. 5. Einzelne Familien, Gattungen und Arten. XVII. Amphibia et Reptilia. 1. Allgemeines. 2. Anatomie und Physiologie.

**Fortsetzung des Inhalts auf der dritten Seite des Umschlags.**
